Support Staff Response

Hello Joseph Lauda,

In order to resolve the issue such that a reinstatement of your domain name would not simply result in the reinstatement of the blacklist affecting an IP address on our network, you will need to contact Spamhaus.

Please let us know the outcome of this matter along with confirming your commitment to adhere to GoDaddy policies going forward.

Once we have confirmation from Spamhaus that they have closed this issue we will be happy to reinstate your services.

If you are unable to reach a resolution with them and wish to reinstate your suspended services you will need to agree to transfer your services associated with redidata.com to a provider not partnered with GoDaddy or any of our affiliates within 48 hours of reinstatement. This would include all email and hosting services related to redidata.com.

Please let us know how you would like to proceed.

Thank you for your cooperation.

Regards
